

Owens Corning Roofing Collection

Oakridge® Pro 30™ Super Brownwood

Owens Corning (NYSE : OC) is a leading global producer of residential and commercial building materials, glass-fiber reinforcements and engineered materials for composite systems.

A Fortune 500 company for 59 consecutive years, Owens Corning has delivered breakthrough products in glass reinforcements throughout the history, and the company's building materials businesses make new and existing buildings more energy efficient, comfortable and attractive with its insulating systems, roofing, and masonry products.

Founded in 1938, the company is the market-leading innovator of glass fiber technology with sales of \$5.2 billion in 2012 and 16,000 employees in 30 countries on five continents.

Roofing System**

A Beautiful Decision

Choose beauty. And performance too.

Owens Corning created roofing shingles that do more than protect a structure from the elements. Our shingle lineup is beautiful, too, and boasts a wide selection of color blends and styles that will complement the exterior design elements of any buildings. From muted to bold, traditional to dimensional – and beyond – roofing shingles from Owens Corning feature richly colored granules that can help you craft the look of your choice. A look that delivers customers satisfaction and curb appeal for years to come. Our eye-catching shingles come with maximum durability built in. So you can feel confident about choosing our roofing products.

After all, Owens Corning has been a recognized leader in the building materials for over 65 years. We're known for making both residential and commercial buildings more comfortable, beautiful, and durable. And we can do the same for your next project.
